Unexpected Fellowship Hall Repairs

The winter rains have exposed a need to repair an active leaky section of the Fellowship Hall roof.

In addition, the trustees would like to replace 5 downspouts on the south side of the Fellowship Hall that frequently get clogged due to an older design.

The gutters fill up and water gets behind the roof flashing, possibly allowing water to seep into the Fellowship Hall ceiling.

If you would like to help fund these repairs, please mark your donation as "Fellowship Hall Repairs".
